ABOUT US

Sports and More Pickleball Flooring is a professional product developed by Sports and More in 2025, designed exclusively for pickleball. It is a prefabricated pickleball flooring system made of modified acrylic combined with a dense PVC base board through an advanced composite manufacturing process.

After extensive research, Sports and More found the right partner factory, which is currently the world's largest, fastest, and most specialized pickleball flooring production facility. The super factory uses a composite production process with fully automated substrate production and hand-crafted surface finishing. Equipped with a patented intelligent automated color-matching system, it can achieve thousands of color options and is fully compatible with Pantone, RAL, and China Architectural Color Card systems, bringing modern intelligent manufacturing to life.

By combining PVC with modified acrylic, Sports and More Pickleball Flooring delivers a high-performance prefabricated surface designed exclusively for pickleball courts — offering superior professionalism, efficiency, and durability.

Sports and More's own quality controllers work closely with the factory to ensure that every flooring system meets their high standards for performance and consistency.

PRODUCT INTRODUCTION

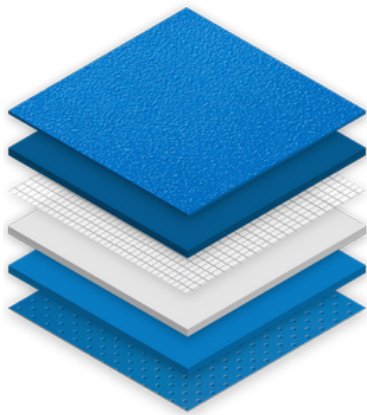

"PickleSand" sports flooring is wear-resistant, anti-skid, shock-absorbing and stable. The hardened transparent layer is scratch-resistant and anti-fouling, and the pure PVC wear-resistant layer ensures long-term use; the double glass fiber structure is stable to avoid thermal expansion and contraction; the high-strength foam layer effectively absorbs impact; the back seal absorbs the bottom pattern to prevent displacement. It is fully adapted to the use needs of high-standard competitive venues

MATERIAL	100% Pure PVC
MODEL	PM-S 3.5
SPEC	3.5mm (T) × 2.0m (W) × 18.3m (L)
COLOR	212-1 Light Blue、212-2 Dark Blue、212-3 Pink、212-4 Gray、212-5 Purple、212-6 Green、212-7 Red
APPLICATION	Indoor&outdoor pickleball/tennis professional competition venues and high-standard sports arenas.

PRODUCT STRUCTURE

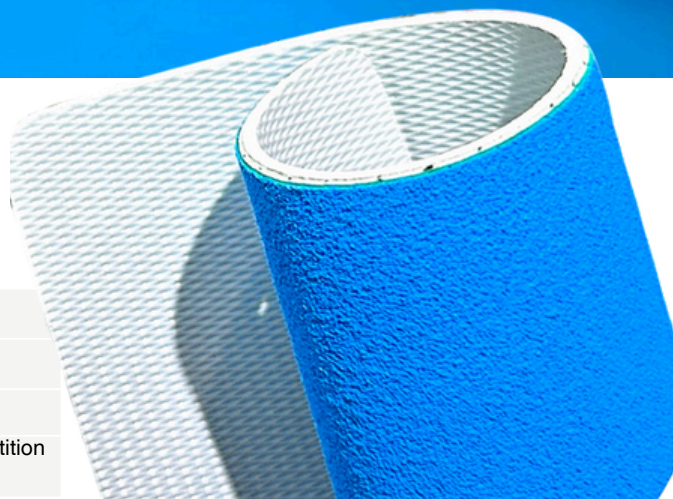

- Scratch & UV Resistant Surface
Anti-scratch, waterproof, stain-resistant, UV protected
- Pure PVC Wear Layer
High-strength wear resistance, long-lasting, made with 100% virgin material
- Double Fiberglass Mesh Stabilization Layer
Minimizes expansion & contraction; excellent dimensional stability
- High-Strength Compression Layer
Enhances compression resistance, ensures long-term support
- High-Density Foam Cushion Layer
Elastic foam for shock absorption and injury prevention
- Dot-Pattern Anti-Slip Backing Layer
Strong ground grip; waterproof and crack-resistant for outdoor installation

PM-T ACRYLIC SAND 3.0MM PICKLEBALL FLOOR ROLL

- ✓ All-weather, UV-resistant surface
- ✓ Precision ball speed & bounce control
- ✓ Anti-deformation fiberglass reinforcement
- ✓ Zero-shift bottom design, safer play

MATERIAL	PVC with Modified Acrylic
MODEL	PM-T 3.0
SPEC	3.0mm (T) × 1.8m(W) × 18m(L)
APPLICATION	Indoor&outdoor pickleball/tennis professional competition courts and high-standard sports arenas.

3.0mm thickness

30 × 60 ft standard court

Two-year warranty

Multi-color in a single roll

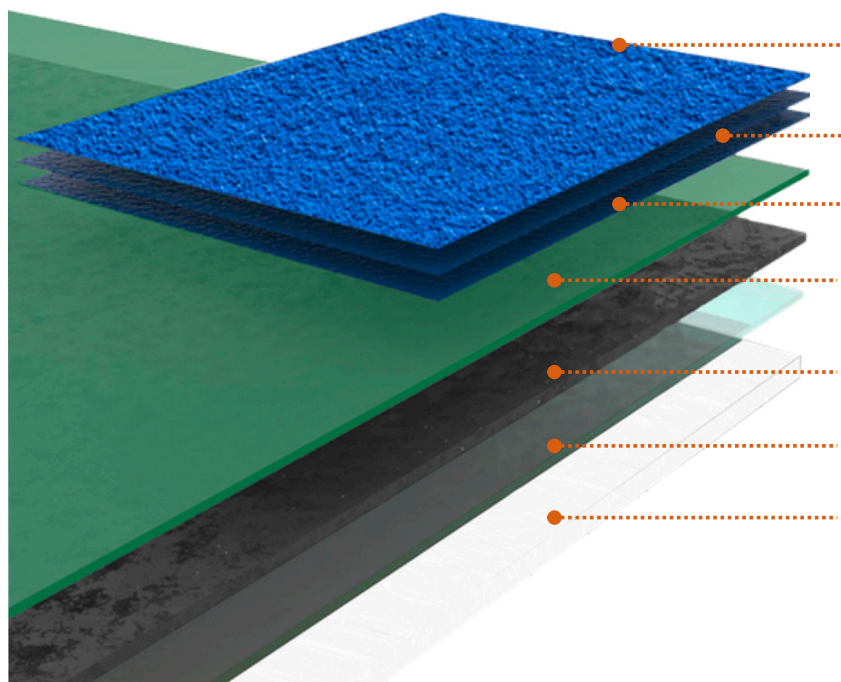

Can be temporarily installed with tape

**Easy transport –
≤125 kg per roll**

PRODUCT STRUCTURE

All-weather modified acrylic surface layer + AC anti-aging treatment layer

Quartz sand particles with modified acrylic speed-control layer

Modified acrylic speed-control layer

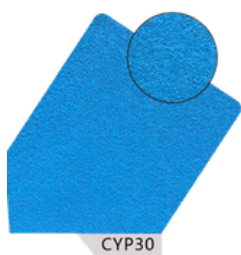

All-weather high-density PVC interlocking stabilization layer

Fiberglass mesh high-strength fiber stabilization layer

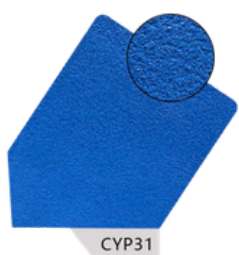

Dense base layer

Anti-shift bottom texture

PICKLEBALL COURT SPECS & SETUP

01 Tape Installation

Use single or double-sided tape for temporary setups.

02 Surface Preparation

Ensure the ground is smooth and clean.

03 Unroll Flooring

Lay the rolls and choose tools based on the site.

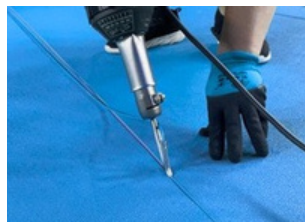

04 Seam Taping

Apply tape in the middle of seams.

05 Grooving

Groove seams for welding.

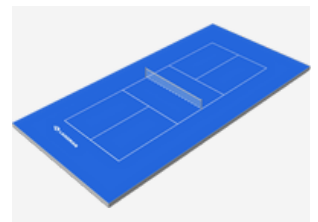

06 Welding

Weld the seams for durability.

07 Flatten Weld Lines

Smooth out weld lines.

08 Completion

The court is ready—play pickleball!
